

## Product datasheet

Brand:	AZOO PLUS
Product:	ALGAE AWAY
Family:	Conditioners
Type:	Algaecide
Presentations:	120 ml, 250ml, 500 ml, 1000 ml, 4.000ml.

## AZOO PLUS

## Presentations, Measurements and weight.

Code	Product	Size	Net (ml/g)	Total Weight (kg)	Measures mm (w x d x h)
AP17842	ALGAE AWAY	120 ml	120	0,150	40 x 40 x 136
AP17833	ALGAE AWAY	250 ml	250	0,295	50 x 50 x 172
AP17843	ALGAE AWAY	500 ml	500	0,555	62 x 62 x 212
AP17846	ALGAE AWAY	1000 ml	1.000	0,960	80 x 80 x 235
AP17865	ALGAE AWAY	4000 ml	4.000	4,040	152 x 152 x 296

## Compatibility and performance:

Compatibility:			Format:	Performance	
			Liquid	Capacity: (ml)	Treats: (liters)
				120	1.200
				250	2.400
				500	4.800
				1.000	9.600
				4.000	38.400
				1ml of product treats 10 liters of water	

## Key Properties

ALGAE AWAY resolves the problem of algae proliferation caused by an imbalance in the nutrients of your aquarium (NO2, NO3, PO4, SiO4) without harming the organisms in your aquarium.

For freshwater aquariums, planted and ponds.

Resolves the problem of algae proliferation in few hours.

It is effective against the prevention of suspended unicellular algae.

If used prudently, it does not harm aquatic plants.

## More information

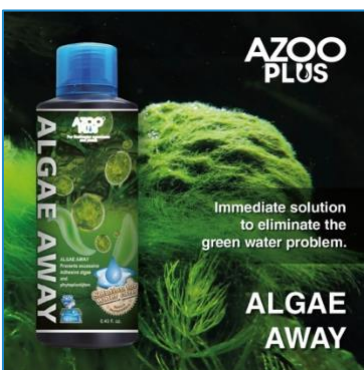

### FEATURES:

- Eliminates and prevents the growth of algae such as filamentous algae, "brush" algae, brown algae, blue-green algae, black algae, among others. Harmless to plants, fish and nitrifying bacteria. It can be applied in different hardnesses of water without side effects on your condition.
- Algae recede within a few hours, gradually perishing due to the change in the new chemical conditions of the water. It is harmless to fish and aquatic plants and is suitable for aquariums and natural ponds. It is highly recommended to use this product cautiously with certain aquatic plants and other organisms sensitive to heavy metals.
- It is effective against the prevention of suspended unicellular algae, which proliferate in freshwater aquariums and ponds due to nutrient imbalances.

### HIGHLY CONCENTRATED.

Its formula is optimized to achieve high concentration and excellent performance:

1ml of product treats 10 liters of water in your aquarium. Simply add 20ml per 100 liters of aquarium water and repeat the dose after 24 hours if necessary. For better dispersion, add the product at the filter outlet.
