

## Product datasheet

|                |                       |
|----------------|-----------------------|
| Brand:         | AZOO PLUS             |
| Product:       | GREEN WATER REMOVER   |
| Family:        | Conditioners          |
| Type:          | Algaecide             |
| Presentations: | 120 ml, 250ml, 500 ml |

**AZOO PLUS**

## Presentations, Measurements and weight.

| Code    | Product             | Size   | Net (ml/g) | Total Weight (kg) | Measures mm (w x d x h) |
|---------|---------------------|--------|------------|-------------------|-------------------------|
| AP17844 | GREEN WATER REMOVER | 120 ml | 120        | 0,150             | 40 x 40 x 136           |
| AP17834 | GREEN WATER REMOVER | 250 ml | 250        | 0,295             | 50 x 50 x 172           |
| AP17845 | GREEN WATER REMOVER | 500 ml | 500        | 0,555             | 62 x 62 x 212           |
|         |                     |        |            |                   |                         |

## Compatibility and performance:

| Compatibility: |  |  | Format: | Performance                              |                  |
|----------------|--|--|---------|------------------------------------------|------------------|
|                |  |  | Liquid  | Capacity: (ml)                           | Treats: (liters) |
|                |  |  |         | 120                                      | 1.200            |
|                |  |  |         | 250                                      | 2.400            |
|                |  |  |         | 500                                      | 4.800            |
|                |  |  |         | 1.000                                    | 9.600            |
|                |  |  |         | 4.000                                    | 38.400           |
|                |  |  |         | 1ml of product treats 10 liters of water |                  |

## Key Properties

Immediate solution to eliminate your green water problem.

- For freshwater aquariums, planted and ponds.
- Resolves the problem of green water in few hours.
- Keeps the water clear: precipitate floating particles in the aquarium.
- If used prudently, it does not harm aquatic plants.

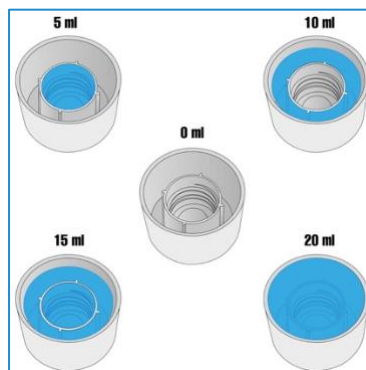

## More information

### FEATURES:

1. Shake before use and pour 10ml. For every 100 liters in the water outlet of the filter or better dispersion.
2. Before treatment, do a partial 30% water change to achieve cleanliness Faster and use in conjunction with an efficient mechanical filter (fibers ... etc.) and add 10 ml. for every 100 liters of water
3. If necessary, repeat dosing after 24 hours.
4. After treatment, change 30% of the water using a siphon to remove all
5. The sediment and change or clean the mechanical filtration media (fibers, etc.)

### HIGHLY CONCENTRATED.

Its formula is optimized to achieve high concentration and excellent performance: 1ml of product treats 10 liters of water in your aquarium. Simply add 20ml per 100 liters of aquarium water and repeat the dose after 24 hours if necessary. For better dispersion, add the product at the filter outlet.
